## Duplex Imaging System

It is intuitive in today's fast paced business world to be able print at extremely high speeds with perfect accuracy. Pack-Smart manufactures the handling platforms to provide companies with the capabilities to do so.

Pack-Smart's comprehensive Duplex Imaging system provides a complete solution to the packaging industry.

### Complete Steps:

1. Feeding Product
2. Printing
3. Sheet turnover
4. Drying
5. Vision Inspection

Pack-Smart offers customers the option of selecting a print engine manufacturer of their choice, or Pack-Smart selects a technology provider that have proven results in the field. Popular choice selections come from the worlds largest printing industry experts such as Kodak VersaMark, HP and DPST Technologies.

The systems are modular making it easy to integrate with web or sheet feed presses, collators, mailbases, folders and a variety of in-line and off-line systems.

### Popular Applications

- Bar-coding
- Numbering
- Addressing
- Personalization
- Spot Color

### Common Features

- High quality printing— up to 400 DPI
- High running speeds— up to 1000 FPM
- Intuitive WYSIWYG (What You See Is What You Get) job set-up
- Variable printing widths
- Wide Selection of inks
- Controllers capable of running over 400,000 products per hour
- Controllers fully integrate with Microsoft Windows
- UV & IR Drying Units
